

Attention Drivers to Augusta Canal National Heritage Area

Bus Drivers' and Carpool Drivers' Instructions

Changes to student drop-off and pick-up procedure for Augusta Canal Field Trips require your attention. Our West Parking Lot has been affected by Greene St. construction. West Lot's two entrances, the one near 15th & the one next to the Enterprise Mill building, have been intermittently closed. If one is blocked proceed cautiously to the other. *Directions:* From 15th Street, pass old Sears Building, now MCG Annex, on right, and pass Kroger on left. Go over the Augusta Canal on the Archibald Butt Memorial Bridge (decorated with eagles and lions) and take an immediate right onto Greene St. Then take your first or second right into our parking lot. **Busses** need to turn in and look for orange cones designating student drop-off area. Drivers should pull over next to the median to unload. *After unloading*, it is important for busses to move to the other side of the building. Proceed to the Bus Parking Lot at the end of Cottage Street, just past the East Parking Lot Entrance. **Cars** find spaces where available – no parking along curbs. If there are no parking spaces available, more spaces are available in the East Parking Lot on the other side of the mill building. Desk: 706-823-0440x4
